
Music Garden System

Music Garden System

Specifications: Music Garden System Mounting hardware included

Music Garden System

Music Garden System

Description

Rockustics' MusicGarden landscape speaker package gives you an attractive, discreet way to distribute audio throughout an outdoor setting. Applications include outdoor living spaces, pool areas, courtyards and gardens. The Music Garden system is sold as a package including four MG4 satellite speakers and one MG SUB8 subwoofer. Additional MG4 satellites can be added to expand the size of the system. MusicGarden speakers are available in Brown. Specifications on the Music Garden System can be found under the MG4 and MG SUB8 speakers.

Patented Phase Technology Technologies

Phase Technology and MSE Audio Group constantly develop new technologies that enhance audio product performance. Phase Technology innovations are protected by multiple U.S. and international patents, which explicitly cover Phase Technology dispersion, enclosure and dome

technologies. MSE Audio Group actively defends its patents in order to protect Phase Technology resellers and end users.

Technical Data and Specification Tools

Technical Data

Phase Technologies strives to provide complete and effective technical information and data to dealers, engineers and designers. All data are available from SoundTube Entertainment or at www.soundtube.com. Technical data and downloads include: EASE™ data - 3-D polar plots. EASE™ Address - 2-D modeling for distributed systems Autodesk® Revit® software Tech Sheets - Technical information and architectural specs for system engineers SoundTubeSPEC™ - Proprietary speaker placement software

Data Acquisition and Verification

All data for Phase Technologies speakers are

independently collected from and verified by NWAALabs (www.nwaalabs.com) using their proprietary MACH testing system. All data are collected and analyzed according to ASTM, ISO and AES standards using EASRA, TEF and MLSSA. Full balloon data including both phase and magnitude are compiled into a variety of formats including EASE 4.x, GLL and CLF.
