

HS PENDANTS

HS15 • HS24 • HS26 • HS28 • HS28-T

Phase Technology's HS (Hanging Speakers) are ideal for open-ceiling applications such as kitchens, bars, workout rooms and patio areas.

Every aspect of Phase Technology Hanging Series speakers maximizes performance – from the ultra-rigid injection-molded ABS enclosure design to the advanced circuitry that provides true musical reproduction and crystal-clear intelligibility. If you're looking for high-fidelity sound for open or high-ceiling areas, look no further than the HS Series.
