

### Description:

Featuring three patented 6.5" tri-laminate RPF Flat Piston/Kevlar/Fiberglass woofers, a 1" softdome tweeter, and a 1.5" soft dome midrange, the PC9.5 reproduces precise and powerful sound.

The RPF drivers accelerate quickly to high acoustic levels while producing crystal-clear sound at any volume, while simultaneously producing a much larger dispersion pattern. The Absolute Phase® Crossovers expand the resulting "sweet spot" both vertically and horizontally while inhibiting "break up modes".

### Features:

- Three 6.5 inch tri-laminate of RPF®, Kevlar and Fiberglass (Patent #4566178) woofers that match the speed and accuracy of the one 1 inch soft dome tweeter
- One 1.5 inch patented synthetic soft dome midrange
- Absolute Phase® Crossover networks ensure that the speaker drivers are acoustically and electronically "in phase" and moving in unison
- Magnetic black cloth grille

### Applications:

The PC9.5 is designed for home audio applications.

For in-ceiling and in-wall options, pair the PC9.5 with the CI6.2X, CI7.3X, CI60 VIII Kit, CI70X, CI-SURRX, CI110 SIII, CI120 or CI130.

### Warranty Information:

The PC9.5 comes with a limited ten (10) year warranty. Products not sold through an authorized dealer/distributor will not be supported by the factory warranty. Warranties are non-transferable.
